

THE CENTER FOR SELF- DETERMINATION CAN HELP YOU!

Training, Education and Consulting Services: Our trainers and consultants were at the forefront of the design, development and implementation of the person-directed planning and of the Self-Determination movement in the 1990's and have the experience, knowledge and expertise in teaching all aspects of Self-Determination from the principles and foundations to system development and transformation. Center staff come from a diverse background and represent self advocates, leaders in organizations, provider agencies, family members, advocacy organizations and other stakeholders. Trainers have the personal experience of working through very complicated and tough issues that come with redesigning a system and helping people live the lives they want within systems that are in transition. The Center can custom design training sessions that will meet the unique needs of the region or system that you work or live in. Trainers and consultants travel nationally and internationally and are ready to meet the needs of your project in your region!
